

Florida United Businesses Association

March 22, 2006

The Honorable Michael Bilirakis
2408 Rayburn HOB
Washington, DC 20515

Dear Congressman Bilirakis:

I am writing to urge you to support H.R. 4167, "The National Uniformity for Food Act of 2005". This bill provides for national, uniform food safety standards and warning requirements and its passage is a priority for Florida United Businesses Association. Under the current system, the Federal Food, Drug and Cosmetic Act, food regulation is composed of a variety of different and inconsistent requirements. The chaotic system results in higher consumer costs as food must meet many contradictory regulatory standards before it ever reaches the consumer. H.R. 4167 seeks to synchronize those differences to attain national uniformity.

The bill benefits from having the support of 227 bipartisan cosponsors and a favorable report from the Energy and Commerce Committee. Florida United Businesses Association strongly supports the passage of this legislation. By bringing a uniform code to the food industry, the legislation is sure to make progress toward lower costs and increased consumer confidence in the food they buy for their families.

The National Uniformity for Food Act takes a deliberate approach to national uniformity for food by providing the means for a complete and ordered review of existing state regulations that may differ from federal regulations. By allowing states the option to have their current regulations adopted by the federal government, this bill carefully balances the need for uniformity while respecting the important role state and local governments hold in ensuring the safety of the food supply

Thank you for your time and attention to this important legislation. Successful passage of H.R. 4167 is important to Florida United Businesses Association and we appreciate your careful consideration of this bill's many benefits.

Yours sincerely,

Lance Lozano, CAE
