The Honorable Jim Gibbons
US House of Representatives
133 Cannon House Office Building
Washington, DC 20515

Dear Congressman Gibbons:

On behalf of the Las Vegas Chamber of Commerce, I urge you to co-sponsor H.R. 4167, the National Uniformity for Food Act, and to support it when it comes up for a vote in the House of Representatives. It could be brought to the floor as early as Monday of next week. This bipartisan legislation will provide consumers with a single set of science-based food safety regulations for products sold across the country.

As you know, the Las Vegas Chamber of Commerce is the largest business organization in Nevada, representing more than 6,800 businesses, many of whom are involved in some way with the food industry.

Under the current system, food regulation is composed of a variety of different and sometimes inconsistent requirements. H.R. 4167 would create a single nationwide system that will provide increased clarity for the consumer on food safety issues. By creating a mechanism for a thorough review of existing state regulations, the bill will result in the most comprehensive and scientifically sound food safety standards. The legislation would not impact state authority on traditional local food enforcement matters such as freshness dating, grade labeling and state inspection stamps as well as recalls and other state enforcement powers. It would preserve the authority of states to act if presented with an imminent hazard. States would also remain free to issue their own public warnings at any time and under any circumstances.

H.R. 4167 will create a national system for the regulation of food products, which recognizes and integrates federal, state and local efforts. I hope you will agree to support and co-sponsor this important legislation.

Sincerely,

Christina Duggan
Vice President
