

National Grocers Association

May 24, 2006

Senator Chuck Hagel
248 Russell Senate Office Building
Washington, DC 20510

Dear Senator Hagel:

On behalf of the National Grocers Association (N.G.A.), I am writing to encourage you to cosponsor “National Uniformity for Food Act” legislation in the Senate. The Nebraska Grocery Industry Association is a member of N.G.A. and supports this legislation as well. On March 8, the House passed such legislation (H.R. 4167) with strong bipartisan support. This legislation is a top priority for retail and wholesale grocers as well as grocery manufacturers.

The National Uniformity for Food Act is common-sense legislation that will help consumers make educated decisions in an ever-changing and currently confusing food labeling environment. The legislation will provide consumers with a single set of consistent, science-based food safety regulations for food products sold in all 50 states. The National Uniformity for Food Act will assure the efficient distribution of food in our nation.

A uniform national standard for food safety will enhance the efficiencies that allow the grocery industry to provide America’s consumers with some of the safest and most affordable food in the world. Under our current system, states may impose differing and sometimes contradictory, regulations. This system poses significant hardships for the entire grocery industry from manufacturers to wholesalers and retailers. Wholesalers that distribute to multiple states may find themselves having to segregate products according to differing state requirements. Multi-state retailers and grocery manufacturers face hardships as they may be required to label identical products differently according to state requirements—a tremendous burden.

The legislation would not impact state authority on traditional local food enforcement matters such as freshness dating, grade labeling, state inspection stamps and recalls.

Passage of the National Uniformity for Food Act will benefit America’s consumers and retail and wholesale grocers. I urge you to cosponsor this important legislation.

Sincerely,

Erik R. Lieberman
Director of Government Affairs
